Re: Ferro - 7050 Krick Road Walton Hills, OH Facility (OHD 004 161 410), ► Request for a 90-day extension to the deadline contained in paragraph 15 of AOC.

Dear Ms. Ellis:

The United States Environmental Protection Agency (USEPA) has entered in to a Administrative Order on Consent (AOC) under RCRA 3008(h) (Docket Number RCRA-05-2011-0018) on September 29, 2011 with Ferro Corporation at their Walton Hills, OH facility on 7050 Krick Road. USEPA received a letter from Ferro dated June 25, 2014 requesting a 90 day extension, per paragraph 21 of the AOC, to the deadlines in paragraph 15 of the AOC that state a submittal of the Corrective Measures Proposal is due on June 30, 2014.

Based on the USEPA's review of the proposed activities at the site and after a site visit on June 25, 2014, USEPA has determined a 90 day extension is an appropriate time frame given that the USEPA Environmental Indicator review is not complete and additional environmental questions are unresolved at the site. Pursuant to Paragraph 21 of Administrative Order on Consent (AOC) (Docket No. RCRA-05-2011-0018), U.S. EPA hereby approves a 90 day extension to the requirements in Paragraph 15 of the AOC, changing the date for submittals of the Corrective Measures Proposal to September 30, 2014.

For any questions regarding this letter, please contact me at (312) 886-1451 or at black.christopher@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Christopher Black", is written over a horizontal line.
